

## M320 Grenade Launcher Holster

Price: 145.00

P/N: M-HOLSTER-M320-RH-MC

Weight: 168 grams

### What:

- Grenade Launcher Holster designed for the H&K M320 (a single shot 40mm grenade launcher)
- Blue Force Gear has had these in use down range for over a year

### Why:

- Designed to fit the Army's standard issue grenade launcher (versions are used by other countries as well)
- Everybody runs this separate because it's too heavy to attach to your rifle
- People are currently storing M320s in Blue Force Gear medium vertical pouches, SAW mag pouches, single point sling, or in backpacks
- HK said these are being issued and Blue Force Gear needs to make a holster

### More Features:

- Stores and ships flat
- If not in use it can be un-done and stored in a backpack flat – takes up less room
- Has a completely open front so it will accommodate all sorts of sights and optics
- Positive retention with a side release strap with additional retention in the form of a bungee
- It mounts on the right hand side grip back or left hand side grip forward
- It's light and simple

### Other:

- It's easiest to mount when it's flat
- The S&S M320 Holster weighs 221 grams

### Materials:

- HDPE – High Density Polyethylene
- Fabric Faced ULTRAcamp™ laminate
- ITW Surface Mount Buckle
- 1" Webbing
- Shock Cord
